GENERAL CODE OF CONDUCT

To ensure a pleasant and successful trip through the Kruger National Park it is essential that you adhere strictly to the regulations, which are intended for your protection and enjoyment. The feeding of animals is considered to be a serious offence.

RULES AND OTHER USEFUL INFORMATION

- Visitors must remain in their vehicles unless in a designated area.
- The maximum speed limit is 50kph on tar roads and 40kph on gravel roads. Please note that not all roads are accessible to caravans.

Gravel Roads

40

50

Tar Roads

- General rules of the road apply within the Kruger National Park.
- Gate times must be strictly adhered to and late comers will be subject to a fine.
- Overnight visitors are only allowed to stay at a booked and recognised overnight facility and must report to reception before occupying accommodation or camping.
- All accommodation and camping sites may be occupied from 12:00 am on the day of arrival and vacated by 9:00 am on the day of departure. Requests for late departure may be made to the duty manager.
- Vehicles must remain on the designated roads at all times.
- To avoid any unpleasant encounters with snakes, spiders and scorpions, ask for the relevant information at reception.
- Kruger National Park is a malaria zone so ask your doctor about the necessary precautions.
- To take full advantage of your stay ask for a list of activities for each camp at reception.
- To ensure that you see all the animals you want, have a look at the spotting board in the various receptions to track the latest game spotting.

STRICTLY PROHIBITED

- Travelling between gates after closing is strictly prohibited.
- The use of cell phones is permitted only in camps, gates and in cases of emergency.
- Use of roller skates, skateboards, bicycles and motorbikes is prohibited.

HANDY HINTS

- Plan your trip – do not try and cover too great a distance. The Kruger National Park is a massive tract of land and frequently visitors try to cover too much ground. Slow travel and regular stopping produce much more action than covering a lot of ground.
- Early morning and evening times are usually the most productive game viewing periods.
- Remember to bring a camera, binoculars, bird and wildlife reference books, a hat and sunscreen lotion. Also remember to take along medicines such as anti-histamine and lotion for insect stings and bites.
- Do not leave any food unattended, as thieving monkeys and baboons are a constant threat.

WARNINGS

SPIDERS, SNAKES AND SCORPIONS

Yes these creatures are part of our environment but will most probably not harm you if not threatened.

If you must walk around at night please **DO NOT DO SO WITHOUT A TORCH**. If you do come across a snake please do not try to catch it! Rather report this to the Manager on duty or to reception.

Beware Snakes

Beware Scorpions

Beware Spiders

Beware Bats

Beware Monkeys

BATS AND INSECTS

Light draws many flying insects and with these insects come their predators. These predators could take on the form of bats and frogs. Please remember to keep your screen doors closed as this will prevent these creatures from entering your room. Should you forget and a bat enters the room by mistake please do not panic! Calmly place a towel over the bat and release it outside or call for assistance.

MONKEY AND BABOONS ARE VERY CUTE AND CAN BE ENTERTAINING FOR YOUNG AND OLD, BUT PLEASE DO NOT FEED THEM.

Remember by feeding them you are signing their death warrant, as they become aggressive. By feeding these animals you do not only aggravate the situation but you also make these animals lazy and they become dependant on this food supply.

Before going out in the morning in search of animals please make sure that you have put all foodstuffs securely away. Remember that these monkeys and baboons have learnt to open up fridge doors and cupboards.
